Sedimentary Geology 119 (1998) 341–342

Sedimentary Geology

Contents Volume 119, 1998

ExpresSed

Rapidity of marine carbonate cementation — implications for carbonate diagenesis and sequence stratigraphy: perspective
G.M. Friedman 1

The saturation behaviour of pumice and some sedimentological implications
V. Manville, J.D.L. White, B.F. Houghton and C.J.N. Wilson 5

Entrainment threshold of natural grains in liquids determined empirically from dimensionless settling velocities and other measures of grain size
J.P. Le Roux 17

Shrinkage and sediment supply control on multiple calcrete profile development: a case study from the Maastrichtian of Central India
S.K. Tandon, J.E. Andrews, A. Sood and S. Mittal 25

Facies architecture variations and seismogenic structures in the Carboniferous–Permian Saar–Nahe Basin (SW Germany): evidence for extension-related transfer fault activity
H. Stollhofen 47

Meteoric water participation in the genesis of Jurassic cherts in the Subbetic of southern Spain — a significant indicator of penecontemporaneous emergence
M.A. Bustillo, A. Delgado, J. Rey and P.A. Ruiz-Ortiz 85

Shallowing-upward cycles in pelagic troughs (Upper Jurassic, Subbetic, Southern Spain)
J.A. Vera and J.M. Molina 103

Multifactorial control on deposition of epicontinental hemi-pelagic carbonates during the earliest Kimmeridgian (Prebetic Zone, southern Spain)
F. Olóriz and F.J. Rodríguez-Tovar 123

Large-scale channel fill structures in Late Ordovician glacial deposits in Mauritania, western Sahara
J.F. Ghienne and M. Deynoux 141

Desiccation cracks in vertic palaeosols of the Cretaceous Hasandong Formation, Korea: genesis and palaeoenvironmental implications
I.S. Paik and Y.I. Lee 161

Erratum

Erratum to "Calcified root cells in Miocene pedogenic carbonates of the Madrid Basin: evidence for the origin of *Microcodium* b" [Sediment. Geol. 116 (1998) 81–97]
A.M. Alonso-Zarza, M. Esther Sanz, J.P. Calvo and P. Estévez 181

Meteoric calcitization of magnesite in Miocene lacustrine deposits (Calatayud basin, NE Spain)
J.C. Cañaveras, S. Sánchez-Moral, E. Sanz-Rubio and M. Hoyos 183

Differences in geochemical features between Permian and Triassic cherts from the Southern Chichibu terrane, southwest Japan: REE abundances, major element compositions and Sr isotopic ratios
T. Kunimaru, H. Shimizu, K. Takahashi and S. Yabuki 195

Detrital modes of the Pyeongan Supergroup (Late Carboniferous–Early Triassic) sandstones in the Samcheog coalfield, Korea: implications for provenance and tectonic setting
Y.I. Lee and D.-H. Sheen 219
Seismites in a Proterozoic tidal succession, Singhbhum, Bihar, India
H.N. Bhattacharya and S. Bandyopadhyay 239
Recumbent flame structures in the Lower Gondwana rocks of the Jharia Basin, India — a plausible origin
P. Dasgupta 253
Beach sands from Baja California Peninsula, Mexico
A. Carranza-Edwards, G. Bocanegra-García, L. Rosales-Hoz and L. de Pablo Galán 263
Pedogenic modification and structure evolution in palustrine facies as exemplified by the Bembridge Limestone (Late Eocene) of the Isle of Wight, southern England
I. Armenteros and B. Daley 275
A platform-to-basin transition for lower Aptian carbonates (Shuaiba Formation) of the northeastern Jebel Akhdar (Sultanate of Oman)
J.-P. Masse, J. Borgomano and S. Al Maskiry 297
Diagenesis of shallowly buried cratonic sandstones, southwest Sinai, Egypt
A.M.K. Salem, A. Abdel-Wahab and E.F. McBride 311

Book Review
Miocene Stratigraphy: an integrated approach, by A. Montanari, G.S. Odin and R. Coccioni — W. Krijgsman . . . 337

Author Index Volume 119 339
